- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, AngularJS, Responsive Design, Cross-Browser Compatibility
- **React & Architecture:** React Hooks, Functional Components, Reusable Components, Component-Based Architecture, Redux, Redux Toolkit, Context API, State Management
- **API & Security:** REST APIs, API Integration, JSON, JWT Authentication, Frontend-Backend Integration
- **Backend & Database:** Node.js, Express.js, MongoDB, Firebase
- **Tools & Deployment:** Git, GitHub, VS Code, Postman, Electron, Vercel, Netlify
- **Engineering:** Debugging, Troubleshooting, Performance Optimization, Page Load Optimization, Code Reusability, Maintainable Code, UI/UX Implementation

PROFESSIONAL EXPERIENCE

IBeON Infotech Pvt. Ltd. — Senior Frontend Developer / React.js Developer | Bengaluru | Nov 2025 – Present

- Develop and maintain responsive, scalable web applications using React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS based on business and client requirements.
- Design and build reusable React functional components and maintainable UI modules using component-based architecture and frontend best practices.
- Improved application performance by 20% through frontend optimization, enhancing page responsiveness and user experience.
- Integrate REST APIs and coordinate frontend-backend data flows to deliver dynamic application features and business workflows.
- Translate UI/UX designs and client requirements into responsive, user-friendly interfaces across different devices, supporting successful project delivery and client expectations.
- Collaborate with team members to understand requirements, resolve issues, deliver features on time, and guide junior developers on React.js and coding best practices.

Sirma Business Consulting India — Frontend Developer / React.js Developer | Bengaluru | Nov 2020 – Jan 2024

- Developed frontend applications and reusable UI components using React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, and AngularJS.
- Contributed to frontend architecture for applications serving 1,000+ users and helped reduce page load time by 30% through performance optimization.
- Integrated REST APIs and backend services to connect frontend interfaces with application data and business workflows.
- Debugged and resolved frontend issues, improving application stability, usability, and overall user experience.
- Worked on enterprise solutions across digital banking, document management, RPA, automation testing, and internal business applications.
- Mentored and guided 5 junior developers, supporting code quality, reusable development practices, and adherence to frontend best practices.

CAREER BREAK

- Jan 2024 – Oct 2025: Planned maternity and childcare break; subsequently returned to professional software development and continued strengthening frontend skills.

SELECTED PROJECTS

TECU Ambank & Chatbot Client — Digital Banking

- Contributed to a digital banking and chatbot solution supporting digital banking services and customer workflows; developed responsive UI, integrated APIs, and supported application functionality. Technologies: React.js, HTML5, CSS3, Bootstrap, Firebase, Node.js, MongoDB, REST APIs.

AFG & DMS Client — Document Management System

- Contributed to an end-to-end document management solution enabling customers to store, preview, print, scan, convert, and upload documents; AFG served as the portal and DMS as the back-office service. Technologies: React.js, HTML5, CSS3, Bootstrap 4.5.

IBorg RPA | Sirma Global Websites | Automize Extension

- Worked on an Electron-based automation testing desktop application, responsive internal company service pages, and an RPA script creation extension. Technologies: AngularJS, Node.js, Electron, Vue.js, JavaScript, HTML5, CSS3, Bootstrap.

ACHIEVEMENTS

- Implemented Laserfiche features that positively impacted the client's decision to adopt the product.
- Received the Excellence Award and Punctuality & Sincere Employee Recognition Award at Sirma Business Consulting.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science and Engineering | Akshaya Institute of Technology, Tumkur | 2014 – 2018
